CENTENNIAL
Keystone Apple Parer.

Patented December 10th, 1872, July 22d, 1873.

THE CENTENNIAL Keystone Apple Parer, 1876, has been altogether remodeled, altered and strengthened, and while retaining all the good and useful qualities of our 1875 Parer, we have added new and novel features which are not experimental, but the result of sound practical demonstration. Among the merits claimed for our Machine, are the following, viz. :—

- 1st All the parings drop clear of the machine and in one place.
- 2d. It is the only machine made that will thoroughly pare an apple—cleaning each end of the core, and taking off *all* the paring.
- 3d. It has less machinery than any other parer, has nothing to get out of order, and is the strongest paring machine made.
- 4th. Every machine is fully warranted.
- 5th. Each machine packed separate in a paper box, and put up in dozen cases.

Sausage Stuffer, Lard and Fruit Press.

Patented September 1st, 1868.

This new combination is at once the *strongest, handiest, most convenient and easiest to work* of all the different machines in the market.

It combines three machines in one, is solid and substantial, and so simple in construction that nothing can get out of order.

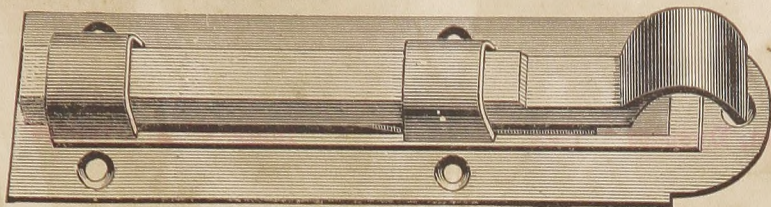

1st. As a SAUSAGE STUFFER, it is the most powerful machine of the kind and only requires *one person* to use it; it does its work in less time and more thorough and complete than any machine made.

2d. All the alteration necessary to make it a LARD PRESS, will be to change the plunger, (which can be done in a minute by any one, without trouble or tools of any kind) and insert the perforated tin cylinder, when it will be ready for use.

3d. As a FRUIT PRESS, it is the cheapest, best and most useful, and for *all* its different uses it is so well adapted that any one can at a glance see the great advantages it possesses. It is just the thing for a farmer, as he can have three machines in the space and at the price of one.

Packed in half-dozen cases.

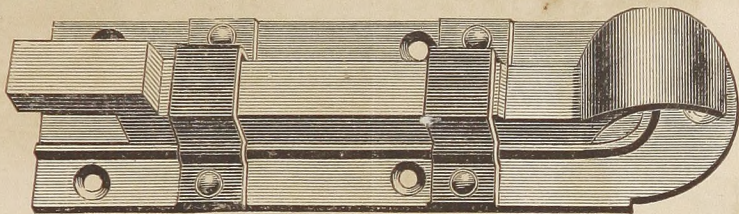

Steel Spring Square Bolts.

ILLUSTRATED CATALOGUE
— OF —
BUILDERS' AND ORNAMENTAL
HARDWARE,
PATENTED BY THE
JUDD MANUFACTURING COMPANY,
OF NEW HAVEN, CONNECTICUT,
— MANUFACTURED BY THE —
Keystone Hardware Manufacturing Co.
OF READING, PENNA.

Having bought out all the right, title and interest, patterns, patents, illustrations, and business of the JUDD MANUFACTURING COMPANY OF NEW HAVEN, CONNECTICUT, in their line of Building and Miscellaneous Hardware, and having removed all patterns, &c., of same to our Works at Reading, Pa., we shall continue to make their universally approved and well-known line of goods, in all their different styles and variety, guaranteeing to keep up the excellent quality of same, and solicit from the trade a continuance of the liberal patronage they have in the past accorded them, and we hope by unceasing attention to all the details of the business to secure for ourselves the trade they have relinquished in our favor.

Respectfully, Yours,

THE KEYSTONE HARDWARE MANUFACTURING CO.

Patent Ornamental Shelf Brackets.

THIS Bracket is attached to the wall by hanging it upon a double hook-plate (shown in the cut), the larger sizes having two screw holes. A pair of these will support a weight of over five hundred pounds. They are so constructed that the shelf can rest on either arm, making one Bracket answer for two sizes.

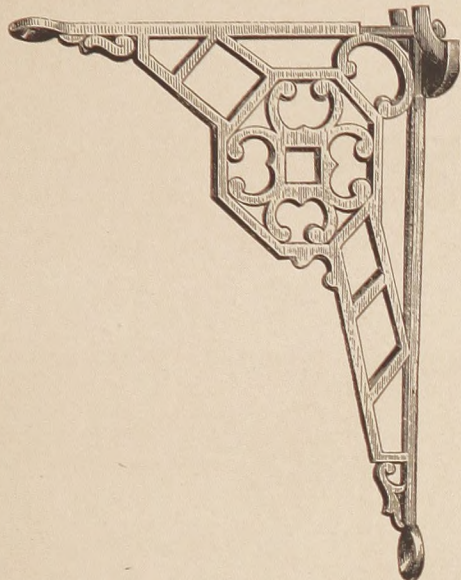

Style of Nos. 237, 238, and 239. Patented.
